DPR Kit**

FastPatch DPR Kit

Easy-to-apply kit for distressed pavement repair (DPR) applications on asphalt or concrete. It contains a unique polymer blend of renewable and recycled materials for long lasting repairs.

Kicker

Packaging

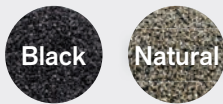

0.40 cu ft (11 Liters) PN: 1026212-KIT
0.20 cu ft (6 Liters) PN: 1026213-KIT
0.10 cu.ft. (2.5 Liters) "Shake-n-Pour"
(Available in bulk packaging. Contact WVCO for more information)

All kits feature recycled content, green components, easy-to-open pail, and pouch packaging to reduce waste.

Topping Sand Colors

Return-to-Service Time

Less than 45 minutes

Recommended Climate

Suitable for warm and cooler climates.
Long term repair option for colder climates.
Kicker recommended for cooler conditions.

Product Info

- 100% Solids
- Low Viscosity
- No VOCs (No Odor)
- Cures Faster
- Elastometric
- Cold Applied
- Green Components

Technical Description

FastPatch DPR is an easy to install, long-lasting repair material for distressed pavement that can be applied in warm or cooler climates. Can be used with FastPatch Kicker (accelerator) to form a fast-curing permanent repair that is ready for traffic in a short period of time. DPR has excellent adhesion, absorbs impact and is freeze-thaw resistant. Easily create smooth transitions and ultra-tough level surfaces. Minimal site preparation and fast cure times reduce traffic interruptions. The product is completely odorless making it suitable for indoor applications as well.

Applications - Asphalt & Concrete Repairs

Roadways/Bridges/Airports

- Spalls / Potholes
- Wheel Path Areas
- Approaches / Departures

Parking Lots

- Holes
- Walkways
- Broken Areas
