FASTPATCH DPR-RR

FASTPATCH DPR-RR

DISTRESSED PAVEMENT REPAIR

FastPatch® DPR-RR is an easy-to-apply, fast-curing, long-lasting repair material for distressed pavement that has excellent adhesion, absorbs impact and is freeze-thaw resistant. It can be applied in warm weather conditions or in cool weather conditions with the aid of the FastPatch® Kicker accelerator.

Because it is supplied in complete, ready-to-use kits it requires minimal site preparation and its fast cure rate helps reduce traffic interruptions and downtime. FastPatch® DPR is completely odorless, making it suitable for indoor application.

WHERE TO USE FASTPATCH DPR

- >>> Roadways – spalls, wheel path areas, approaches and departures
- >>> Parking Lots – holes, walkways, broken areas
- >>> Warehouses – floors, spalls, loading areas
- >>> Sidewalks – trip hazards, walkways, “repair instead of replace”

FEATURES AND BENEFITS

- >>> Easy to Apply – mix with cordless drill, pour and finish in minutes
- >>> Lasting Repair – excellent adhesion and impact absorption
- >>> Fast Cure Time – reduce traffic interruptions and mitigate downtime
- >>> Recycled and Renewable Materials – sustainable sources
- >>> Odorless – 100% solids and suitable for indoor applications
- >>> Freeze-Thaw Resistant – long-term repair for colder climates
