SPIKEFAST® ES-60

RAIL REPAIR PRODUCTS

WOOD & COMPOSITE

SPIKEFAST® ES-50 RM & RMII

TIE **PLUGGING** MATERIAL

Specifically designed to efficiently anchor spikes with comparable strength to un-spiked hardwood ties, this non-foaming, 100% solid polyurethane product is **ideal for wood and composite railroad ties** and can be applied in a wide range of outdoor conditions.

>>> Easy to apply with minimal maintenance and clean up

>>> Dynamic rail roll-over equal to hardwood and 2X wood plugs

>>> Engineered for efficient metering/mixing, pressure and temperature control

>>> Quick cure time and high production rate

SPIKEFAST® ES-60

TIE **PLUGGING** MATERIAL

Specifically tailored with **improved properties for cold weather application**, ES-60 is manufactured to efficiently anchor spikes with comparable strength to un-spiked hardwood ties and is ideal for wood and composite railroad ties.

>>> Easy to apply with minimal maintenance and clean up

>>> Non-foaming, 100% solid polyurethane product

>>> Engineered for efficient metering/mixing, pressure and temperature control

>>> Tailored to excel in cold weather application
